**Intern**

<http://www.ericsson.com/cn/> (<http://www.ericsson.com/cn/>)

I develop an independent C# project in the first month. Then I joined the swift team. I fixed some bugs and improved a test program called WPST.

### Highlights

- Developed a software named ETool written in C# which was a language I never touched before. This tool is used to config EnodeBs , which are hardwares in communication base stations and is functioning well.
- Fastest intern qualified to join a team.

## Shanghai Zhaimi Trading Co., Ltd

2015-10-14 — Now

**Intern**
