Stupid Sun wants to work in a challenging work environment to achieve personal and professional growth. Aim to use his knowledge and skills of software developing and utilize his passion for web-dev.

💼 WORK EXPERIENCE

Ericsson Shanghai

Intern

2015-07-01 - 2015-09-30

http://www.ericsson.com/cn/ (http://www.ericsson.com/cn/)

I develop an independent C# project in the first month. Then I joined the swift team. I fixed some bugs and improved a test program called WPST.

- Developed a software named ETool written in C# which was a language I never touched before. This tool is used to config EnodeBs ,

which are hardwares in communication base stations and is functioning well.

- Fastest intern qualified to join a team.

Shanghai Zhaimi Trading Co., Ltd

Intern

2015-10-14 - 2016-1-30

http://zhai.me/#/customer (http://zhai.me/#/customer)

Work as a front-end developer mainly in a project franky which is an operational system. Maintain the custom project's front-end part as well.

- Developed a code generator called generator-ng-zhaimi and common lib named zhaimi-common and used them to optimize the front-end framework of project franky as a pioneer for other projects.

🌐 VOLUNTEER

SJTU Software School Youth Volunteers

Vice captain in last year

2012-09-01 - 2014-07-01

http://page.renren.com/601523118?checked=true (http://page.renren.com/601523118?checked=true)

Joined lots of activities as a volunteer and organized some as a vice captain
